ODDBIN RECYCLERS

WE RECYCLE WHAT OTHERS WONT

WE RECYCLE THE FOLLOWING CLEAN CATEGORIES

LDPE-

We focus on all forms including Aerothene, Polyfoam, sheeting, expanded profiles, multilayered sheeting, and lumps

LLDPE-

We focus on all forms including pallet wrap, cling wrap, shrink film and injection grade

HDPE-

We focus on all forms including Hard hats, engineering parts, packaging, large containers and all forms of sheeting, rotor mould, extruded and blow mould

PP-

We focus on all forms including EPP (expanded polypropylene), PPGF (polypropylene glass filled), PPM (polypropylene car parts), BOPP (All propylene films*) and all injection/blow mould grades

POLYSTYRENE-

We focus on all forms including EPS**(expanded polystyrene), HIPS (high impact polystyrene), GPPS (general purpose styrene), XPS (extruded polystyrene)

PVC-

We focus on all forms including Rigid and flex found in Engineering, construction, packaging and food

ABS-

We focus on all forms including injection, extruded and some multilayer in ABS/PC (polycarb) and ABS/HIPS (high impact polystyrene)

PA-

We focus on a limited range and grade at this point, PA12/10. Mainly found in the motor industry

*** Certain multilayers can not be taken into normal streams but still can be recycled for a surge charge per kg**

**** Food grade and contaminated EPS can be recycled for a surge charge per kg.**

Oddbin Recyclers was found in 2017 and our focus has always been firstly on all expanded LD and PP plastics. We have since added and removed some plastics to our list and always staying true on focusing on Odd plastics. We hope to have a conversion branch in each province by 2025 as we grow our base out of Gauteng

LDPE

LDPE

LLDPE

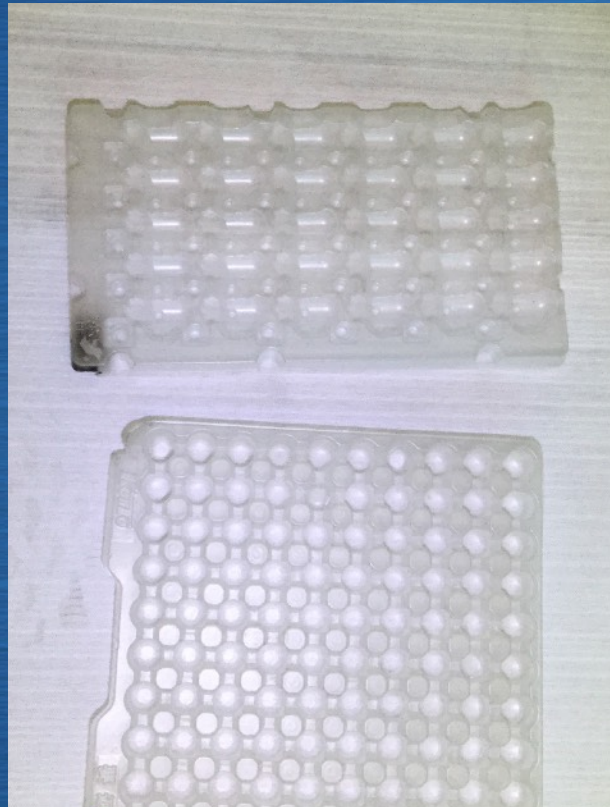

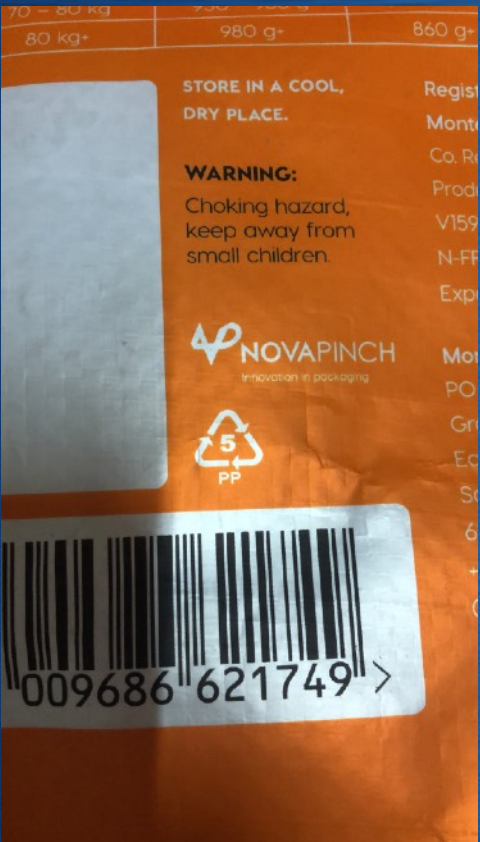

Chappies/Pallet wrap and
LD injection grade

HDPE

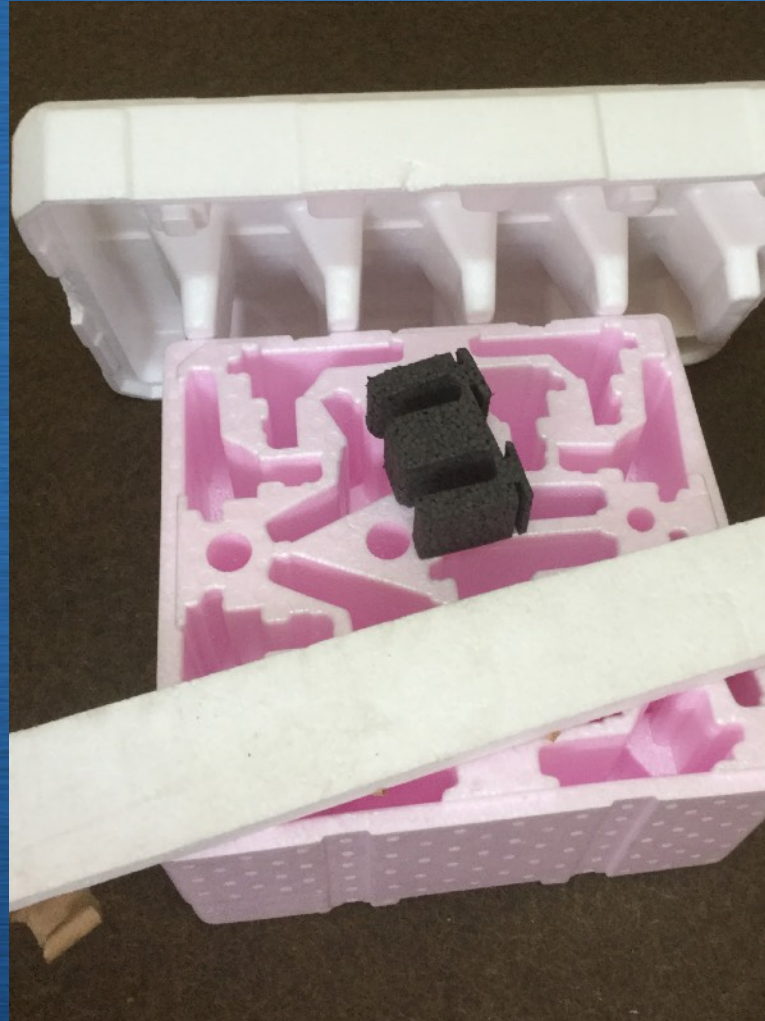

PP

PP

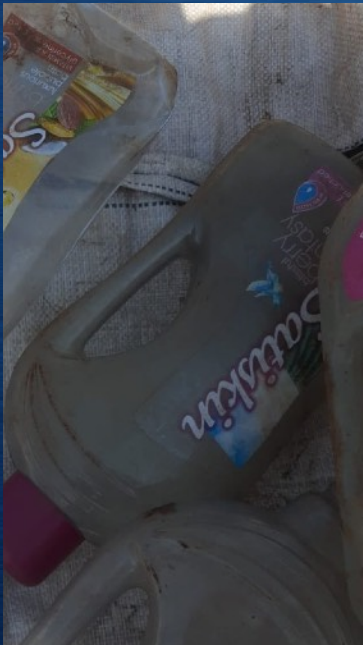

PP

Polystyrene

PVC

ABS

ABS

NYLON

PA 12
Only

No Category

Mattress foam type and Non Steel rubber lining

Any other item can be pre tested and most times
can be identified with a picture.
